\* Comment. A large fuel depot of the GDRG is located at Velten.

25X1

25X1

\*\* Comment. Most of the shipments dispatched via Frankfurt/Oder consisted of deliveries by East German hydrogenation plants to the U.S.S.R. or returning empty tank cars. The cotton seed shipments from the U.S.S.R. were probably consigned to civilian enterprises. All the shipments to and from Poland are directed via Forst. The shipments to Stettin via Scheune will be transloaded there to ship. Deliveries of topped crude oil from Zistersdorf in Austria and the corresponding empty railroad tank cars are sent through Bad Schandau and Bad Brambach.
